The following Fiscal Impact Statement and Bill Analysis are prepared for the benefit of the members of the General Assembly, solely for purposes of information, summarization and explanation and do not represent the intent of the General Assembly or either chamber thereof for any purpose. In general, fiscal impacts are based upon a variety of informational sources, including the analyst's professional knowledge. Whenever applicable, agency data is consulted as part of the analysis, however final products do not necessarily reflect an assessment from any specific department.

OFA Fiscal Note

State Impact:

Agency Affected	Fund-Effect	FY 16 \$	FY 17 \$
Department of Housing	GF - Cost	300,000 to 900,000	400,000 to 1.2 million

Municipal Impact: None

Explanation

The bill results in a cost of up to \$900,000 in FY 16 and up to \$1.2 million annually thereafter by requiring the Commissioner of Housing to develop a medical respite pilot program in up to three municipalities as of October 1, 2015.

The Department of Housing ran a pilot program in New Haven in FY 14 for which the FY 14 budget included an appropriation of \$400,000. Assuming the annualized cost to implement a pilot program in one municipality under the bill is \$400,000, the cost to the agency to develop the program in three municipalities is \$1.2 million annually.

The bill does not specify when the pilot program would terminate. To the extent that the program continues beyond FY 16, there will be a cost to the agency of \$1.2 million annually.

The New Haven pilot program (1) shared existing resources with a homeless shelter facility and (2) received voluntary medical services from collaborating institutions. To the extent that similar shared resources and voluntary services are not available to the pilot programs under this bill, then the state's annual cost will increase in order to provide necessary services.

The Out Years

The annualized ongoing fiscal impact identified above would continue into the future subject to inflation.
